Who We Are

Opening its doors for the first time in 1994, Phoenix Aviation offers worldwide executive charter flights, worldwide air ambulance service, aircraft management services and repair and maintenance of aircraft.

VISION STATEMENT

To be a world class aviation solutions provider of executive air charter, aeromedical evacuation, aircraft management and aircraft maintenance services.

MISSION STATEMENT

Our mission is to provide bespoke, comfortable, reliable, private and convenient Executive Air Charter flights, worldwide Air Ambulance service, aircraft management services and repair and maintenance of aircraft.

Why Phoenix Aviation

Phoenix Aviation provides quality, consistent air transport solutions at the highest level of professionalism. Our finely engineered fleet of aircraft come equipped with the latest technology, our passionate, experienced and knowledgeable operations and maintenance teams, our mission is to exceed your expectations.

Our mixed fleet of aircraft can take off and land at a greater number of airports than scheduled airlines and enables access to many remote airports. Phoenix Aviation takes you closer to your destination at a time that suits your schedule. With the freedom to travel when you want and where you want, Phoenix Aviation delivers an unparalleled executive service in air travel.

At Phoenix Aviation you receive a completely personalized experience from our team. We are here to ensure your every travel need is met by understanding your needs and crafting a completely personalized experience. This is a commitment we take pride in.

At Phoenix Aviation, we love what we do and it is our passion for excellence that our customers recognize and which ultimately drives our success.

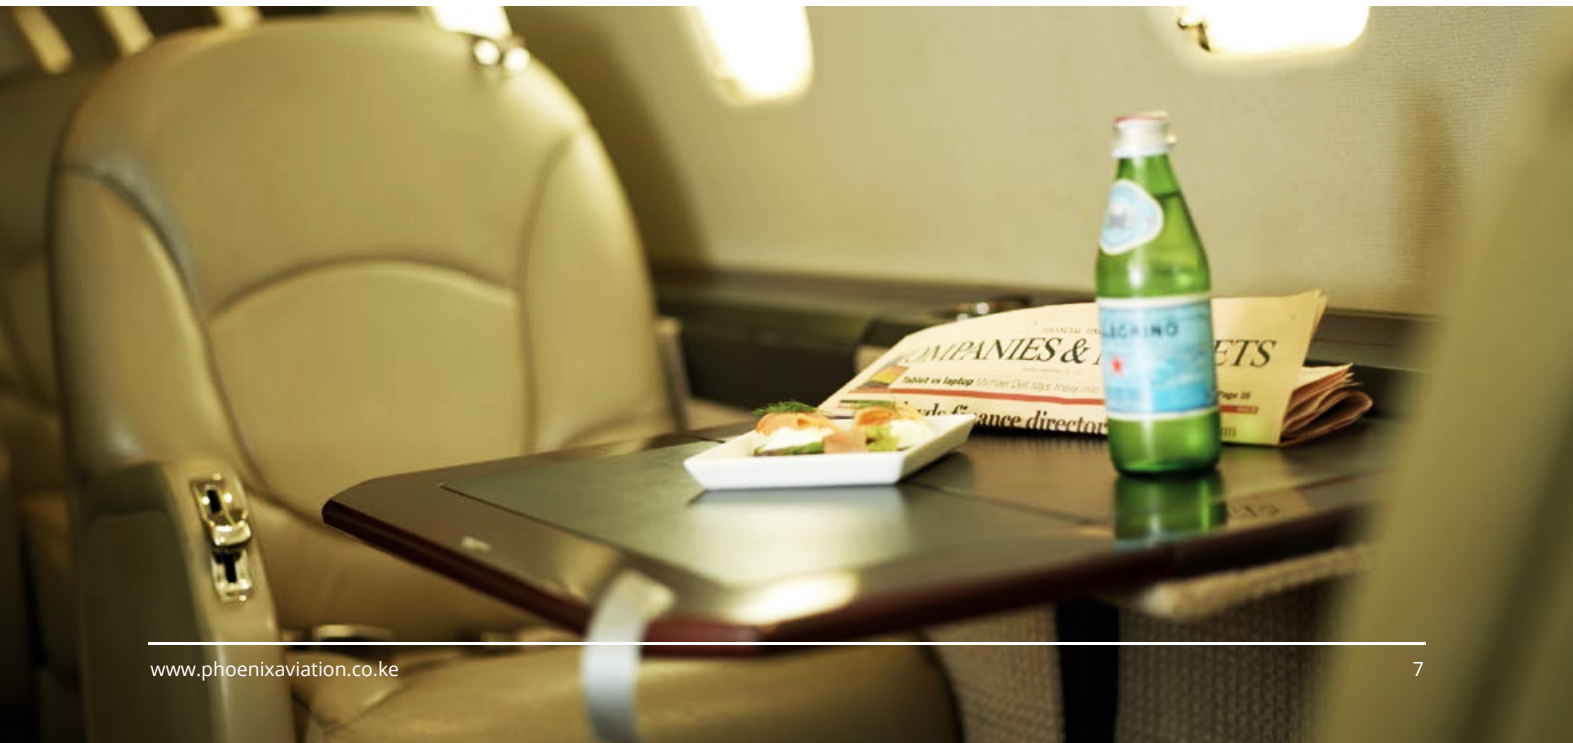

OUR SERVICES

Executive Charters

At Phoenix Aviation, we offer tailor made solutions to meet your travel needs. Be it business travel or pleasure, our executive charters maximize your efficiency and give you control of your valuable time.

Our Flight Operations Department maintains a 24/7/365 Operations Control Centre (OCC),

responsible for dispatch and flight following of all our aircraft both at home base and at outstations. The OCC is fully equipped with landlines, mobile telephones, VHF and UHF transceivers and live tracking via Satellite tracking system.

PHOENIX

Global Air Ambulance

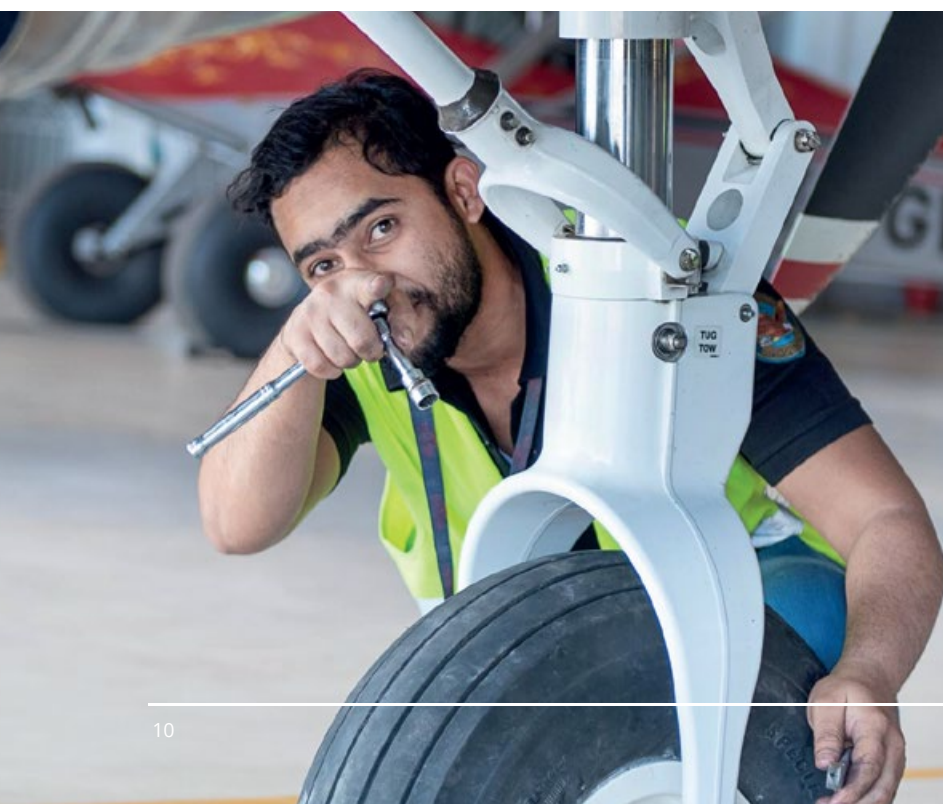

Global Air Ambulance

Phoenix Global Air Ambulance extends our culture of excellence to offer the highest quality aeromedical transfers globally. With over 25 years' experience in air rescue and evacuation from hostile and non-hostile areas, Phoenix Global Air Ambulance has built a name as a one-stop-shop for all your aeromedical needs. We focus on accomplishing requests for patient transfer throughout Africa and globally by use of strategic partners.

Our mission is to provide efficient, global aeromedical care by offering timely, holistic and compassionate patient centered care, using our advanced medical equipment and highly skilled personnel. We also offer "Bed-to-Bed" service for patients globally.

Aircraft Maintenance

Phoenix Aviation owns modern aircraft repair and maintenance facilities at Wilson Airport, Nairobi-Kenya. Our Aircraft Repair and Maintenance Organization (AMO) is approved by the Kenya Civil Aviation Authority (KCAA). The approvals allow us to perform repair and maintenance activities for all our fleet and third-party aircraft. Our approvals cover repairs, maintenance and modifications on the Beechcraft KingAir B200/B300 series, Cessna C208 series, Cessna Citation C550B Bravo, Cessna Citation C560XL Excel, Cessna C680 Sovereign aircraft, DEHAVILLAND Dash 8 – 100, 200 and 300 Series, Piper and Cessna Single and Twin-engine aircraft models.

Our engineers hold multi-category licenses with type ratings to adequately cover all our aircraft. Our maintenance personnel receive manufacturer factory training at the Flight Safety International training centre in Wichita, USA.

Regular recurrent training of our engineers and technicians ensures they are up to date with the latest technology, skills, procedures and regulatory updates ensuring the highest technical safety standards are upheld.

Aircraft Management

Phoenix Aviation Aircraft Management is a one-of-a-kind service offering private, business and government aircraft owners bespoke solutions relating to aircraft ownership such as aviation regulatory compliance, aircraft maintenance tracking and coordination, staff recruitment, flight planning and aircraft operation.

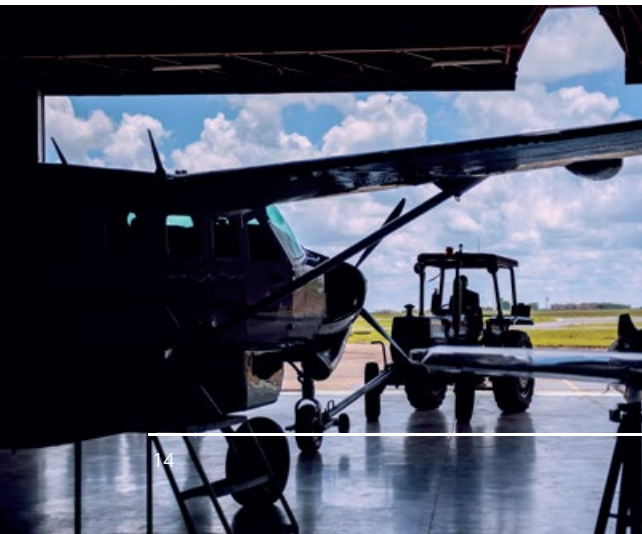

Our aircraft management service allows you all the benefits and satisfaction of aircraft ownership, but with none of the time-consuming management responsibilities involved in aircraft operations.

By entrusting your aircraft to Phoenix Aviation, you can be sure that your aircraft will receive the same level of care as our own fleet.

Safety and Quality

Phoenix Aviation has a robust Safety, Quality and Security Management system that ensures that the organization operates in compliance with all applicable regulatory requirements as well as international safety standards and industry best practice.

WE hold a European Aviation Safety Agency (EASA) Third Country Operator Authorization having demonstrated compliance with the technical and administrative procedures related to air operations. This safety authorization allows us to operate in the European Union airspace.

We also boast of vast experience in remote, hostile and challenging operational environments. Our experienced team of pilots undertake annual recurrent simulator trainings at renown training facilities including Flight Safety International Simulator Centre in Farnborough, UK. Our training program also includes periodic proficiency checks on each aircraft type we operate. We continue to strive for the highest level of crew proficiency to ensure safety of our operations.

Corporate Social Responsibility

Phoenix Aviation has always been community minded and views itself as having a direct responsibility to provide time, aid and assistance to those in need.

We have participated in various wildlife conservation and humanitarian rescue projects.

A dark blue-tinted photograph of an airplane engine nacelle. The text "Our Fleet" is overlaid in a large, white, serif font, centered over the engine. The background shows the intricate details of the engine's fan and casing.
